

An Introduction to Austrian Military Records

Using Military Records to Find Your Ancestors

© Steven W. Blodgett, AG. MLS

Background

Military records of the Austrian Empire include a number of valuable genealogical sources. The military played a significant role in the lives of citizens of the Austrian Empire. Prior to 1802 a soldier's term of service was for life, although he was not necessarily on active duty the entire time. Those exempt from military service were the clergy, the nobility, certain government officials, and workers employed in mining, iron production, and necessary agricultural occupations.

One facet of Austrian military life that was unusual for the time period was the absence of segregation and discrimination against non-conformist religious groups. Protestants, Orthodox, and Jews served alongside the Catholic majority in the military services. Soldiers from each group had all of the rights of military membership and there were many who held high positions in the Austrian military.

After 1802 the term of service was reduced to ten years, but many were still exempt from military service. In 1868 a universal conscription went into effect. Every male citizen was obligated to serve three years of active duty in the military. This was modified in 1912 to a two-year term of

active service. This remained the case through the dissolution of the empire.

The War Archives (*Kriegsarchiv*) in Vienna contain documents relating to the Austrian military from the 16th century until the end of World War I. Generally earlier records contain less genealogically relevant information than those of later years. Some of the more recent records were turned over to modern successor nations including Hungary, Yugoslavia, Romania, and the Ukraine.

Family History Library Collections

The major collections in the Vienna War Archives were microfilmed and are available in the Family History Library and Family History Centers. Indexes to some of the records are available, particularly if your ancestor happens to be an officer, staff member or official. It is estimated that over 10% of soldiers were officers.

Enlisted men can be located when the name of the regiment or military unit, or place of recruitment can be discovered. Recently filmed alphabetical personnel files or sheets called *Grundbuchblätter* for soldiers born in areas corresponding to the states of modern Austria have been made available. Similar lists for soldiers born in other areas

Personnel Sheets

Major collections of significance for enlisted soldiers are the Personnel Sheets (*Grundbuchblätter*). These cover soldiers born as early as 1780 up through those who mustered out or died as late as 1930. These records are strictly alphabetical and are contained on 616 rolls of film. These personnel background sheets include all soldiers and officers born within the states of the modern Republic of Austria. You can search for the record of your ancestor born within one of the following states: Vienna (Wien), Lower Austria (Niederösterreich), Upper Austria (Oberösterreich), Styria (Steiermark), Carinthia (Kärnten), Salzburg, Tirol, and Vorarlberg.

These Personnel Sheets are arranged alphabetically by surname within each state. Records began to be kept about 1820, and include soldiers' born as early as 1780. Most soldiers mustered out after World War I, but some as late as 1930 have been found.

Documents show year of birth, place of birth, religion, occupation and record of service, including names of regiments where served and dates of service. If you do not know the exact birthplace of an ancestor, but you know he was born in one of the states of modern Austria, the personnel sheets can be used to determine his exact birthplace. A list of the film numbers for these

records has been included in Table 1. The beginning surname is shown for each microfilm. The same surname may appear on the preceding film. See Table 1 for microfilms of Austria Personnel Sheets.

Muster Rolls

The Muster Rolls and Formation Tables (*Musterlisten und Standestabellen*) cover all soldiers and officers during the time period 1740-1820. They are contained on 5,104 rolls of film. These records are filed and cataloged by the name of the regiment or unit. To determine which regiment to search for enlisted men, use the Location Index discussed later. Most regiments have individual indexes, but there is no general index for all enlisted men. Information given for each soldier includes name, age, birthplace, children's names, some birth dates (after 1770), religion, occupation and marital status.

An Officers' Index (*Kartei für Musterlisten und Standestabellen*) to the above records covers the years 1740-1820, and is contained on 29 rolls of film. This is an alphabetical file of officers' names showing the regimental unit number in which your ancestor may be found in the muster lists. An index card is available for each regiment for which an officer served.

Personnel Books

The regimental personnel books and formation lists (*Grundbücher und Stellunglisten*) cover the years 1820-

The image shows a handwritten military personnel sheet for Robert Musil. The document is divided into several sections:

- Header:** "Haupt-Grundbuchblatt." with fields for "Wohnort" (Klagenfurt), "Geburtsjahr" (1881), and "Matrik.-Nr." (3367).
- Personal Information:** Name "Robert Musil", birthplace "Klagenfurt", religion "kath.", and other details.
- Personaldescription:** A table with columns for "Name", "Höhe", "Gewicht", "Farbe", "Haar", "Augen", "Nase", "Mund", "Haut", "Blut", "Sonstige Bemerkungen".
- Veränderungen:** A table with columns for "Ort", "Beschreibung", "im Jahre", "am", "Befreiung". It lists several transfers and discharges between 1901 and 1913.
- Service Record:** A table with columns for "Veränderung", "im Jahre", "am", "Beschreibung". It details military movements, including "überführt 1911", "eingestellt 1911", "abgeführt 1911", "verwundet 1912", and "entlassen 1913".
- Administrative:** Includes a date "Sämtl. am 31. Dezember 1913" and the name of the administrative officer "Thalhammer".

1869. These include enlisted soldiers and officers and are contained on 2,884 rolls of film. They are arranged and cataloged by the name of the regiment. To find the name of the regiment use the Locator Index discussed later. Name indexes within each regiment are arranged alphabetically by year of mustering out. Information for each soldier includes name, age, birthplace, children's names and birth dates, religion, occupation and marital status.

Service Records

A major collection of significance for officers only are the Service Records (Dienstbeschreibungen und Qualifikationslisten) which cover the years 1823-1918. These records are contained on 3,408 rolls of film. They are filed alphabetically and supplement the muster and background books with more complete information concerning the actual service of each officer, official or staff

member. These records give the exact birth dates, special duties, transfers, and other events such as marriages and births of children. Some information about parentage may be given as well as the units in which the officer served.

Military Church Records

Military Church Records (*Militärkirchenbücher*) were kept by many of the regiments. Some of these cover years as early as 1654 and may extend as late as 1922. So far 551 microfilm rolls of military church records have been filmed. Church records were kept for most military units, hospitals and garrisons. They are to be found cataloged under the name of the unit and/or by the name of the place where the unit was stationed if known. These records contain mostly death records, but a surprising number of births and marriages were also recorded.

A tool for locating the military church records is the Military Church Records Directory (*Militär-Matriken-Index*). It is contained on 5 rolls of film. It indexes the names of regiments, units, hospitals, and places where the military parishes were stationed or garrisoned. The index does not

show the names of soldiers, but show the dates of the available church records, names of regiments and locations of military parishes. Film numbers are 1442862-1442866 item 1.

Location Index

An indispensable tool for determining the name of the regiment into which an ancestor was recruited is the Location Index for Recruitment into the Imperial and Royal Austrian Army and Navy Troops (*Dislokations-Verzeichnis des k.u.k. Heeres und der k.u.k. Marine, 1649-1914*) by Otto Kasperkowitz. It is a typescript made in 1969, consisting 320 pages. It appears on film # 1186632 item 1.

The Location Index shows the names of regiments, battalions, and other units which had permission to recruit at various locations throughout the Austrian Empire. To use this index one must know at least the district in which the soldier lived prior to enlisting. If the name of the district is known, the Location Index can be used to determine the name of the regiment or unit into which a soldier was recruited. The time period to search in the Location Index would be when the recruit has reached at least 17 years of age.

An essential addition to the Location Index is the Recruiting District Guide (*Uebersicht der Werb-(Ergänzungs-Bezirks-Eintheilung von 1781 bis 1889)*). This

is a series of tables found the History of the Austrian and Austro-Hungarian Armed Forces (*Geschichte der k. und k. Wehrmacht*) by Alphons Wrede. This valuable work was only partially published in Vienna by L. W. Seidel & Son, 1898-1909. Some of the volumes appear in manuscript form. The tables are found in volume 1 following page 114 (Film # 1187917 item 2).

Other Austrian Military Records Collections

Guardianship records (*Pupillar Protokolle*), 1702-1882. 83 rolls of microfilm. These records are arranged by time period and category. Includes some indexes. Gives soldier's name and date of death, names and birth dates of orphaned children.

Marriage bonds (*Heirats-Cautionen*), 1750-1883. 10 rolls of microfilm. Each officer had to post a bond which could be used to sustain his widow and children in the event of his death. These records are arranged by categories of officers within specific time periods. Gives names of marriage partners and marriage dates. There are indexes in several of the series.

Widow and Orphan records (*Witwen und Waisenakten*), 1749-1828. 16 rolls of microfilm. This special collection of pensions for widows and orphans is arranged by time period and category of soldier. Gives names and dates of death and marriage. Includes some indexes.

Military staff records (*Stabsbücher*), 1753-1825. 89 rolls of microfilm. Includes salary, pension and discharge records of military staff. These files are indexed.

Pension records (*Pensionsakten*), 1770-1920. 220 rolls of microfilm. Each pensioned officer, and eventually his widow and orphaned children received support from the military. These records are arranged by unit and category of service. Includes some indexes by category of officer.

Conclusion

The recent acquisition of the alphabetical military personnel files for Austria proper and the Czech republic have made locating genealogical data for soldiers born from 1780 to 1900 in these areas easy to locate.

To find the records of enlisted men in other locations throughout the Empire and in earlier time periods one must determine the regiment in which he served, and then find the muster rolls or service records for that regiment. These and other military records have been microfilmed and are available through the Family History Library and its Family

The Hungary portion of the Austro-Hungarian Empire included Hungarian counties in Banat, Croatia, Hungary, Slavonia, and Transylvania. Given here are infantry regiment numbers that were recruiting at the time period shown.

Other former recruiting territories were Italy, Belgium, Poland and Germany. Italian areas included provinces in Lombardy and Venice.

Changes at the Family History Library (FHL)

As part of the remodeling of all floors of the FHL (partly in anticipation of Winter Olympic visitors in February 2000), each floor plan has been changed to increase the “open stack” space for books (noticeable on B-1). Also the number of “WebView” FHL Catalog computers has been greatly expanded, with dozens of open work stations for patrons.

The FHL now updates the WebView catalog (FHLC) every Monday morning, and the old DOS CD-ROM Catalog is “no more,” not having been updated since December 1998. While this WebView system is sometimes down for an hour or two during the weekly Monday morning update, it is always operating by Monday afternoon. It is great improvement over the old DOS system, permitting subject, author and key word searches in addition to locality searches.

The FHL CD Catalog continues to be available at the Joseph Smith Building Distribution office (call 1-800-537-5971 for customer service from out of town). Plans for this CD include an annual update, but we are still patiently waiting for the 2001 update (the most recent one is dated March 2000). These updates are very valuable for use at home and in preparing for visits to the FHL or FHC. They cost only about US\$5.00 each.

Another major advance at the FHL was the installment of a Cannon microform to CD Scanner, as was reported on the FEEFHS WebSite earlier (type “Cannon” without quotes into the WebSite Index for the article). The first unit was placed on the second floor of the FHL in March 2001. Long range plans are said to call for additional units on each floor of the FHL. While (at most) only about 200 frames (pages) and hour can be burned onto the inexpensive gold C-ROM, it is quite helpful and cost-effective to bring important microfilm pages back home this way to deal with at your leisure.
